

ILLUMINATION PRESENTS
Dr. Seuss'
The
GRINCH

Classroom Valentine Envelope

Supplies:

- White Cardstock
- Printer with color ink
- Bright Green Yarn (or tape if you skip this step)
- Hole Punch
- Scissors

Instructions:

Step 1: Print Pages on White Cardstock

Step 2: Cut triangle out of envelope back using lines provided

Step 3: If stitching envelope, punch holes all around sides of both pages (if using tape, skip to step 7)

Step 4: For envelope opening, punch holes on the top of the front side of the envelope and the triangle closure

Step 5: Use yarn to stitch envelope together starting at the top of one side and back to create X shape stitches.

Step 6: Attach the triangle closure with the front side of the envelope in the same way to close the envelope

Step 7: Cut 3 hearts in different sizes from cardstock and glue together.

Step 8: Attach heart to envelope and add velcro to seal.

♡ Valentine's Day Garland

- Print Sheet on white cardstock paper
- Cut around characters
- Cut out hearts to use as templates
- Cut 15 hearts in each size
- Assemble Garland using attached instructions

Valentine's Day Garland

SUPPLIES:

- String for garland (I used pink and white package string)
- Scissors
- Cardstock in bright green, light pink, bold pink, and white
- Mini clothespins
- Hot glue gun and glue
- Glue stick
- Printer with color ink

INSTRUCTIONS:

Step 1: Print Character sheet on white cardstock

Step 2: Cut around characters leaving a small white border

Step 3: Cut 15 hearts in each size using the templates (or punch with heart punch tools in 3 sizes) with green for the smallest heart, light pink for the medium size and bold pink for the largest.

Step 4: Fold each heart in half from side to side so the point of the heart is where the crease is.

Step 5: Measure the length you want for your garland and cut string.

Step 6: Tie off a loop on each end for easy hanging

Step 7: Measure 12 inch sections for your hearts to hang from. (I did 5 sections)

Step 8: Tie each string to main garland so they hang down. We will attach hearts to these.

Step 9: Using the glue stick, glue hearts together half to half to create a 3D shape leaving the last one open. (optional: skip the 3D effect by gluing two hearts back-to-back with the string in the middle)

Step 10: Attach open heart to string and glue the last side together starting at the top with the smallest heart, then medium, then large. Repeat for the rest.

Step 11: Use Hot glue to attach characters to clothespins and add between dangling hearts.

Step 12: Hang valentines!
